

TOOL CHANGE ORDER

RIVIAN

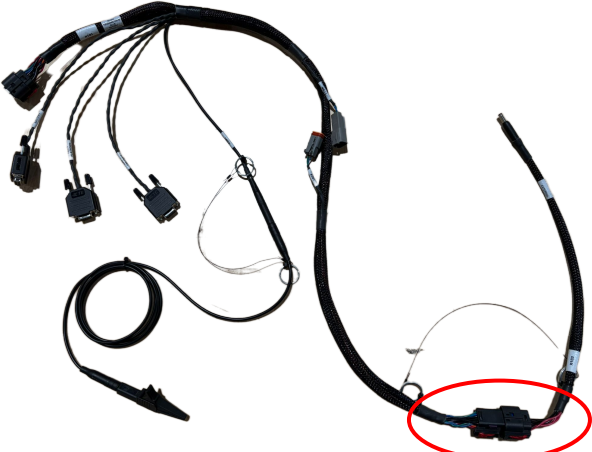

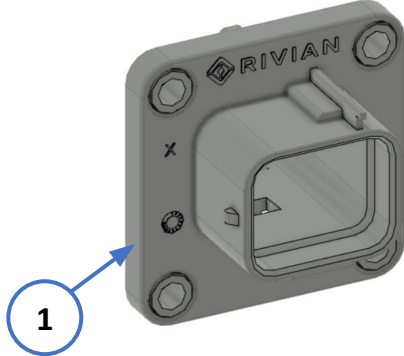

TOOL NUMBER TSN00548-300-C

TITLE HV BATTERY COMMUNICATION HARNESS

REV - DATE REV A - 3/18/2026

BACKGROUND

This document provides guidance to upgrade all tools in the field to the latest Revision C. This revision adds the header assembly frame from the HV Battery pack to the main Aptiv connector. Previous revisions did not have this part, which has a key feature to ensure proper connector orientation when mating the external power adapter and discharger LV stub.

CURRENT TOOL	COMPONENTS TO UPGRADE
	

ITEM	QTY	RIVIAN PN	DESCRIPTION
1	1	PT00098697-B	ASM FRAME FOR 24W APTIV 35638806

TOOL UPGRADE INSTRUCTIONS

1. Install PT00098697-B assembly frame to the connector labeled X201 on the Rev B comm harness in orientation shown. Frame will "click" in place once its fully seated.
2. Push red tab forward to lock frame in place
3. Apply adhesive label with updated TSN00548-300-C part number over top of existing heat shrink label
