

TSN00876 - EDV CURBSIDE DOOR LATCH ALIGNMENT TOOL

Reference

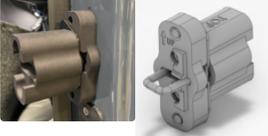

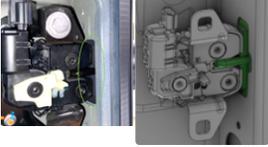

Labor Code: 565030110

Purpose

To properly align the curbside door latch for EDV.

The tool aligns both the vertical and forward/aft positions of the latch.

Tool Use

Step		
1	Pre-install the door latch. The door latch mounting screws should be left loose enough to allow the latch position to be adjusted.	
2	Insert the tool into the striker opening. Insert the tool completely into the door latch. Note: Ensure that the tool is oriented correctly. There are "UP" and "TOP" markings on the tool.	
3	Close the curbside door onto the tool. The striker on the curbside door will be inserted into the tool.	
4	Push the door latch rearward until it is aligned and contacting the tool.	
5	Torque the door latch mounting bolts to spec.
